ABOUT ME

I am a mapper analyst at TrueCommerce VietNam in DaNang city. I am a backend develop for applications on the Google Play Store, with 136,000+ downloads and free application usage. In addition, I have been freelancing for many applications and websites for years and I help transform visions and ideas into meaningful and useful products for my customers. Having a sharp eye for product evolution allows me to prioritize tasks, iterate quickly, and deliver efficiently.
